

THE OREGON MIST.

United States and County Official Paper.

ST. HELENS, SEPTEMBER 18, 1891.

LOCAL AND GENERAL.

School books at Ross' drug store.
Goods exchanged for produce at Bacon's store.

R. C. Campbell, fish commissioner for Oregon, was in St. Helena Tuesday.

Mr. G. C. Love, deputy organizer of the A. O. U. W. was in town Tuesday, in the interest of that organization.

Ross has a new stock of flavoring extracts. You can get any flavor you want.

Bacon sells groceries cheap, at Gill-ton. Call on him.

Hon T. A. McBride and wife, of Oregon City, were in St. Helena Saturday night.

Dennis Perry and Ed Copeland came down from Portland Saturday to attend the Masonic social.

Harry West, of Scappoose, is entitled to the chromo for the largest samples of millet on record in this office.

Visitors to the exposition will find the St. Charles Hotel Restaurant first-class in every respect. Meals 25 cents. St. Charles Hotel building, Front and Morrison streets, Portland.

Forepaugh's big circus was in Portland Monday and Tuesday and some of our citizens went up to see the "big elephant" walk around, and came back, as usual, disgusted with themselves and the circus too.

Exposition tickets free. Parties from the country purchasing \$10 worth of goods from the magnificent stock of Watches, Diamonds and Jewelry at Uncle Meyers' Jewelry Store, 165 First street, will be given tickets to Portland's Grand Industrial Exposition free. Don't forget the number. Call and get your tickets.

There is some talk of reorganizing the cornet band in St. Helena. To this we would say go ahead as fast as possible. A good band is one of the very essential things for a town or city to possess. We hope the parties who have the matter in charge will meet with success.

The surveyors on the Goble-Astoria railroad pitched their tent at Rainier Monday night, and will work on this end of the proposed route for a while. They have been working toward Astoria lately and have finished that end for the present. We were unable to obtain anything definite from them as to the route they had selected or whether they had selected any or not.

The state secular union will hold a convention in Portland on Saturday, Sunday and Monday, October 3, 4 and 5, 1891. The object of the meeting is to establish a secular government, and their motto, they claim, is the total separation of church and state, the taxation of church property and a free Sunday are the lines on which they are at work at present.

Many years practice have given C. A. Snow & Co., Solicitors of Patents, at Washington, D. C., unsurpassed success in obtaining patents for all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column, will be of interest to inventors patentees, manufacturers, and all who have to do with patents.

A San Francisco dispatch of September 11, gives the new of the almost wrecking of the schooner General Banning off the coast of Flinta Island and says: while loading her cargo, the vessel was twice blown out to sea by severe storms. On each occasion about 100 natives were on board, and they hastened ashore in canoes. The second time several canoes were captured, and the occupants were thrown into the water, which swarmed with sharks. Out of thirty-one natives who were thrown into the water, eight were killed and eaten by sharks, and one man had his leg bitten off below the knee.

The Columbia and Puget Sound Transportation Company's new steamer Flyer will be about in about ten days. She is being built by Johnson and Olsen in Portland and is intended to ply on Puget Sound between Tacoma and Seattle and is expected to make twenty-five miles an hour. The boat is 175 feet in length, twenty-four feet beam, with thirteen feet depth of hold. The four bladed propeller, whose diameter is ten feet eight inches, will be driven by triple expansion engines of 1890 horse power. She will cost, when complete, about \$110,000, and will be used for passengers only of which she will carry about 300.

A movement is on foot at the present time by the weather and signal service bureau to gather crop statistics for compilation in book form to be distributed all over the East, setting forth Oregon's vast acreage, yield and different productions of the soil of the state together with the average yield per acre. We have been asked to assist in this matter, and also every other person interested in the upbuilding of the Northwest is urged to take a part and lend what assistance they can in the matter. We hope with the co-operation of the farmers to be able to make up a tolerable accurate report for the statistician so that Columbia county may have a place in this splendid publication. To assist in this matter we invite each farmer or stock raiser in the county to furnish us a list of the number of acres they have in potatoes, grass, grain of each kind, the number of horses, swine, sheep, etc., etc., so that we may be enabled to make a respectable showing among the prosperous counties of the state. It will only take about ten minutes to do this and the expense of a stamp and envelope, and in the end would be a great benefit to your section as well as to the state at large. We receive no pay for our work in this line, but with the assistance of each one we are willing to undertake the task. Letters of this nature may be sent to THE MIST or to Judge

Switzer. Parties furnishing such information will confer a great favor on us by so doing.

The Masonic fraternity gave an entertainment at their hall on Saturday night last which was attended by the members of the fraternity and a number of invited guests, and also the officers of the grand lodge of Oregon, consisting of Grand Master VanDusen, of Astoria, Deputy Grand Master Jacob Meyer, of Portland, ex-Grand Master Chadwick, Grand Warden Anderson and many visitors from various parts of the state. The visitors arrived on the steamer Kellogg about 5 o'clock in the evening, and a delegation of the home lodge were at the wharf to welcome them, and they were taken to the homes of the members of this place who entertained them until about 7:30 when they repaired to the lodge room and commenced the evening's exercises, principal among which was the grand master's address. After adjournment of the lodge the distinguished visitors were escorted to the lower floor of the Masonic building where the ladies of the fraternity had prepared a most elaborate spread and were in waiting to welcome the visitors to their part of the entertainment. While seated around the festive board Grand Master VanDusen, on behalf of the officers of the grand lodge, thanked the members and ladies for the warm welcome accorded them in a few well chosen remarks, after which he introduced Deputy Grand Master Meyer, who kept the assemblage in a continuous strain of laughter for some time and then called on ex-Grand Master Chadwick. Mr. Chadwick reviewed at some length the history and results to be derived of Masonry. The next speaker was Dr. George H. Chance, followed by Grand Senior Warden Anderson. Judge F. A. Moore welcomed the visitors on behalf of the lodge in a few fitting remarks, followed by Hon. T. A. McBride, D. C. Tedford, Mr. McKencher and others. Mr. McBride said that while not a resident of St. Helena, he was nevertheless still a member of this lodge. During his remarks he alluded to the visiting brethren that while the feast prepared by the ladies for the occasion was excellent, they had only had two or three days notice, and that should they had a couple of weeks' notice they would have prepared a repast that would be indescribable. At the close, about 12 o'clock, a few brief remarks were made by Messrs. Meyer, McBride, Anderson and Chadwick, after which the festivities were brought to a close, and the people went to their respective homes feeling that it was good to be a Mason.

Mr. Bron, who was hurt at Blanchards logging camp Tuesday, was taken to St. Vincent's hospital and had his leg amputated about two inches above the knee. It was feared the man would not live, but he pulled through the operation, and there is doubt as to whether he will ultimately survive.

Hon. John R. McBride, of Spokane Falls, formerly of Salt Lake and at one time congressman from Oregon, is spending a few days in St. Helena with relatives.

Lost—A couple of black and tan hounds, male and female, in the vicinity of Bunker Hill. Finder will kindly return same, (or say where they can be had), to John Mackenzie, Scappoose, Or.

Highest price paid for butter, eggs, etc., at Bacon's farm-raised store.

Buy your school books at the drug store, Rulers and blotters free.

CLATSkanie NEWS.

C. H. Wheeler was on our streets the early part of this week.

Captain N. Nichols, W. H. Kyser and W. A. Young, of the upper Clatskanie were in town Saturday.

As the wet weather approaches the insufficiency of our school accommodations are made more manifest. It is proposed to build a new school-house and the expenditure has been authorized by a vote of the citizens, but the ground to put the building on cannot be secured. The earth in town is so precious for anything so common as a common school building and the boys and girls take their chances of life and health in the old dilapidated buildings now being used.

Clatskanie has been disposed to smile at the metropolitan aspirations of Vernonia, but the latter named town shows evidence of progress that bids fair to bring it out of the woods. A late copy of the Nehalem Journal informs us that the lumber is nearly all on the ground for a new church there, and in another place that bids were opened for a new school house.

A new school house and a church are the things that Clatskanie want and it seems a little strange that their neighboring town in the woods is going to get ahead with both buildings. We congratulate Vernonia while we sigh for Clatskanie that calls itself the banner town of the county.

Two plucky little fellows, Arthur and George Bancroft aged 11 and 13 were the guests of Master George Conyers last week. The boys are sons of Mr. and Mrs. Bancroft of Portland and rode from home on their ponies spending a night on the way at Deer Island. Their father is connected with the freight department of the S. P. R. R. but the boys prefer to see the world on horseback, and made one trip to The Dalles and another to Forest Grove before coming here. They stayed Friday morning on their return trip home.

Considerable work had been done on the hill last week preparatory to a Sabbath school picnic on Saturday, but when the day came the rain came also and the picnic was postponed.

We are glad to note a disposition to use paint lately. The Laws house is being overhauled by Blackford and Dan Gorman has been trying his skill on the Gates house. We do not know whether Dan pretends to be an artist or not but his work looks well on that building.

Nehalem Avenue has been laid out straight but travelled very crooked and will be literally beside itself when Milton Bryant gets his fence finished. He is taking in quite a portion of the plank road which he is no doubt entitled to inasmuch as his deed calls

for it. His summer work on the big stump in front of his house will not be in vain now that the ground is his.

The scold that you hear most about in town, are not those that weigh salt and sugar but those that the boys try to glide up and down on with their new borns. Some of them are getting there fairly well but others seem to blow out very peculiar and unmusical sounds up to this date.

Mrs. Mary Lockwood spent a portion of last week in town visiting her brothers and sister in this place. She left on the steamer Saturday morning for her home in La Centre, Wash.

Will Fouts has had his residence remodelled and painted until it presents quite an attractive appearance, and as William believes that anything must be seen to be appreciated, he has had some brush cut down that hid his view from the lower portion of the town and how the house stands out in all its glory.

Uriah Kelly and family are now citizens of the town occupying the house formerly known as the Gates house.

Mrs. Shoudy of Rockford, Ill., and Miss Emma Tower of Meudota, Ill., came in on Friday to visit Mrs. W. H. Conyers a sister of the first mentioned lady. They have been spending some time in the East and will remain here long enough to see and appreciate the natural beauties of this region.

Watson Elliott and family were up from Marshland on Monday.

John W. Stratton and family are back from the Nehalem Valley occupying their residence in town after their summer absence.

Mr. Dale, ex-county clerk of this county was in town Tuesday. We did not learn how he arranged to have his chickens cared for during his absence from his bachelor quarters in the Nehalem Valley but take it for granted they were to be looked after by some one. How much more convenient it would be for a man under such circumstances as he leaves home to say: Now Susan, dear, don't forget the chickens.

Andrew McDougal left on Monday night for near Napa down the Columbia where he expects to log with Geo. Howitson from a tract recently purchased by C. A. Himpel.

RAINIER BREEZES.

Every thing looks lively since the rains.

Of the three mills and factory in this place only D. Blanchard's saw mill has been animated in the past month, it has run several days.

D. Blanchard has been driving piles back of his wood dock on which he is erecting a new fish house, to be occupied by Martin Booth.

The new Henderson cottage which is nearly completed, rumor says, is to be occupied by the same party.

Rainier is to have a new \$2,000 school house.

D. Bierce with a force of work men is working on the Masonic hall which has been at a stand still for the past year.

Will Pomeroy and Rupert Dibblee leave soon for school the former goes to Corvallis and the latter to Portland. We wish the boys every success, and many friends will miss them.

On the 15th a sad accident occurred at D. Blanchard's wood mill. Mr. Bron, a well known and esteemed resident of this place, while running the engine hauling the logs, got caught in the rope and wound up on the drum, crushing his right leg badly, breaking it in three places and in all probability would have been killed, but for the presence of mind and heroism of his little son aged 12 who shut off the steam and extricated his father before the men working near could come to his assistance. This occurred about noon and the steamer R. R. Thompson waited half an hour and took the injured man to Portland.

The lumber is being hauled for the new cottage under contemplation on the hill back of Dibblee's.

The time festival at the residence of Mrs. Mock on Monday eve proved an enjoyable time.

Pfessor Morris and wife, who have been spending the summer months with relatives in Beaver Valley, left this place Tuesday for their new home on Portland heights. Their friends wish them all happiness after their years of travel and work for the betterment of mankind.

A LOOKER ON.

OBITUARY.

Eliza, wife of G. S. Foster, of Goble, Or., departed this life at 4 p. m. on Friday, September 4, 1891.

The above was born on the prairies of Illinois, August 25, 1856, and was united in marriage to her surviving husband in September, 1872. The fruits of their union is five children, two boys and three girls, one of the latter having by providence been called away some four months ago, the loss of which was a sad bereavement to both father and mother; but with Christian fortitude all submitted to the will of the Divine Master. With sadness, all on the Lord's day, met at the humble home of the deceased. Friends from St. Helena, Rainier and the immediate vicinity with tokens of friendship and words of comfort paid their respects to the dead and distressed, and after the mound was raised to mark the last resting place of one so dear it was covered with nature's shroud of beautiful flowers, all within sight of her late abiding place. As it is but a few short years since I became acquainted memory brings to recollection noble deeds of honest hearts, among them such was she; but her toils on earth are over, and truly can it be said the community have lost a noble lady and the husband a noble and loving companion, one who always could and did meet you with a pleasant smile of recognition and a good word of cheer. Rest in peace, kind sister, is the prayer of the writer.

SUB-TREASURY AGAIN.

Editor MIST.—Lest another may not, I take the liberty, with your permission, to reply to "Query," who professes to be seeking light on the "Sub-Treasury Scheme," but seems to assume that it would be fraudulent for the government to issue such sub-

treasury paper unless it had in its treasury at the time, an equal value of gold and silver with which to make such issue good.

I judge that "Query" is a youngster, for he has been on the stage of business action from 1890 until some time after the close of the war, I think he would not be troubled about the ability or the right of the government to handle itself, even though the other fellow had cornered and hoarded all of those two high priced products of the land, gold and silver. Besides, if it would be fraudulent to issue paper money now when there are hundreds of millions of gold and silver in the treasury and in circulation, what was it then when, practically, there was not a dollar of either gold or silver to even base the paper issue on; and the future existence of the government itself was by many, thought problematical.

For as complete an answer as to what advocates of the sub-treasury plan propose, I should refer him to the secretary of the nearest farmers' alliance for a tract on that subject.

L. C. Q.

A FIGHT FOR LIFE.

SHALL WE DRIVE BLOW POISON FROM OUR BREAKFAST TABLE?

Alum and Ammonia in Our Bread.

A nuisance that troubled England fifty years ago is now rapidly spreading in this country, that is putting alum in the bread we eat. This question is causing a great deal of discussion at the present moment, as it is revealed that alum is being used as a substitute for cream of tartar in baking powders. A story is told that a very large percentage of the baking powders sold on the market contain either alum or ammonia, and many of them contain both these pernicious drugs. Much timely alarm is felt at the wholesale use of alum in bread, biscuits and pastry. To young children, growing girls, persons of weakly frame, alum bread eaten morning, noon and evening is the most harmful. It is the small quantities taken at every meal that do the mischief.

Alum is cheap, costing but two or three cents a pound while cream of tartar costs 30c; and the high price of cream of tartar has led cheap baking powder to be made of alum. If the reader wants to know something of the corrosive qualities of alum let him touch a piece to his tongue then reflect how it acts on the tender delicate coats of the stomach.

Following is a list compiled by the Scientific American, of the alum and ammonia baking powders that have already been tested.

ATLANTIC & PACIFIC, ROYAL, COOK'S FAVORITE, SCOTO, CROWN, SILVER SPOON, CRYSTAL, SILVER STAR, DAIRY, SNOWDRIFT, DAVIS O. K., SOVEREIGN, DRY YEAST, STAR, GEM, STATE, GLOBE, STANDARD, KANSAS, SUNFLOWER, PEASONS, WASHINGTON, PERFECTION, WINDSOR, PEELLESS, ZIP'S GRAPE, PURITY, CRYSTAL.

There are, in addition to the foregoing list from the Scientific American, a number of such powders sold in the Western that were not found in the Eastern stores.

Following is the list to date: CALUMET, Contains Alum. (Calumet Baking Powder Co., Chicago.) FOREST CITY, Contains Ammonia Alum. (Forest City Baking Powder Co., Chicago.) CHICAGO YEAST, Contains Ammonia Alum. (Chapman & Smith Co., Chicago.) HON BOW, Contains Alum. (Hon BOW Baking Powder Co., Chicago.) UNREVEALED, Contains Alum. (Sprague, Warner & Griswold, Chicago.) ONE SHOT, Contains Ammonia Alum. (Taylor Mfg. Co., St. Louis.) YARNALL'S, Contains Alum. (Yarnall Mfg. Co., St. Louis.) SHAW'S, Contains Ammonia Alum. (Merchants' Mfg. Association, St. Louis.) DODSON & HILL, Contains Alum. (Dodson & Hill, St. Louis.) SHEPARD'S, Contains Ammonia Alum. (Wm. H. Shepard, St. Louis.) RAIN'S, Contains Alum. (Meyer-Bain Mfg. Co., St. Louis.) SNOW BALL, Contains Alum. (Reed, Muddock & Co., Chicago.) SNOW BALL, Contains Alum. (Bengal Coffee & Spice Mills, Chicago.) GLA, Contains Alum. (Glenn, Contains Alum. (W. F. McLaughlin & Co., Chicago.) ECHO, Contains Alum. (Shaw's Baking Powder Co., Chicago.) KALBEEL'S PURITY, Contains Alum. (Kalbeel Mfg. Co., Chicago.) RISING SUN, Contains Ammonia Alum. (Rising Sun Baking Powder Co., Chicago.) WHITE ROSE, Contains Ammonia Alum. (Globe Coffee & Spice Mills, Minneapolis.) WOOD'S, Contains Ammonia Alum. (Thos. Wood & Co., Philadelphia.) ANDREWS' PEARL, Contains Ammonia. (G. E. Andrews & Co., Milwaukee.) HARRIS' FAVORITE, Contains Alum. (H. H. Harris, Minneapolis.) FIDELITY, Contains Alum. (Fidelity, Contains Alum. (Sherman Bros., Chicago.) PUTNAM'S BEST, Contains Alum. (Wells, Putnam & Co., Chicago.) CHINA, "T" HOUSE, Contains Alum. (Noah McDowell, St. Paul, Minn.) TWI CITY, Contains Alum. (J. K. Peterson, Minneapolis, Minn.) HERCULES, Contains Ammonia. (Hercules Baking Powder Co., S. P. Cal.) CLIMAX, Contains Ammonia. (Climax Baking Powder Co., Indianapolis.)

Dr. Price's Cream Baking Powder is reported by all authorities as free from ammonia, alum, lime or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

The First Step.

Perhaps you are run down, can't rest, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration. You need a Nerve Tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great Nerve Tonic and Alternative. Your appetite returns, good digestion is restored, and the Liver and Kidneys resume healthy action. Try a bottle. Price 50c at Edwin Ross' Drugstore.

BORN.

WIXTROM—To the wife of Gus Wixtrom, of Houston, Monday, Sept. 14, a daughter.

Business COLLEGE.

Portland, Oregon, A. P. Armstrong, Prin. Business College. Graduates in all the sciences of study, same rules of tuition. Business, shorthand, typewriting, penmanship, and English Department. Also a full course in bookkeeping. Catalogue free. Write to any address.

Electricity Conquers Disease.

Mrs. Frakes, of Scappoose, Relates Her Experience With Dr. Darrin.

Oregonian, September 1st, 1891.

Mr. Editor—My boy was seriously afflicted with rheumatism in the arm and wrist. It became so bad and inflamed that an abscess formed and pieces of bone came from it. Dr. Darrin cured him with electricity. We are pleased beyond expression and wish you to publish this. I have also been under Dr. Darrin's care and successfully treated for heart trouble and general debility.

MRS. R. J. FRAKES, Scappoose, Oregon.

Deafness and Ringing in the Ears Cured.

Editor Oregonian, Dear Sir—For 10 years I have been deaf, accompanied with ringing noises in my ears. Dr. Darrin cured me in 20 minutes by electricity. Refer to me at the corner of V and Blackstone streets, Portland. Hope this will encourage others to their relief. I remain yours truly, WM. H. CUMMINGS.

We present the following list of names of people who have experienced relief and cure by the electric cure as practiced by Dr. Darrin:

Mrs. John McGinnis, Vancouver, Wash.—Paralyzed arm, cured sixteen years ago by Dr. Darrin, while in San Francisco.

Mrs. S. A. Wooden's girl, 91 Columbia street, Portland—Nervous debility, malarial fever and discharging ear; restored.

Wm. Altnow, Drewsey, Grant county Or.—Cervical deafness and ringing in the ears for twenty years; perfectly cured.

Mrs. C. Magerson, Merchant's Hotel, Portland—Rheumatism, neuralgia and female troubles; cured permanently.

W. F. Ogle, Seaton, Wash.—Liver and kidney complaint and dyspepsia, also deafness and whole system run down; cured.

William Little, Seattle, Wash.—Pain in the chest for over eight years' standing; cured.

J. V. Shangle, Sunnyview, Or.—Heart disease, palpitation, kidney and liver complaints; cured.

Dr. Darrin treats with electricity and medicines all curable, chronic acute and private diseases, blood taints, loss or failing manhood, nervous debility, effect of errors, or excesses in old or young, loss of memory, diseases caused by mercury in the improper treatment of private diseases, irregularities in women, and never published in the street. Office: 70 1/2 Washington street, Portland, Or., and "The Normal" Seattle. Hours: 9 a. m. to 8 p. m. daily. Examinations free and confidential; question blanks and circulars sent gratis to any address. Patients cured at home after one visit to the doctor's office. Medicine sent to any address without the doctor's name appearing.

PORTLAND MARKETS.

Thursday, Sept. 17.

PRODUCE, FRUIT, ETC. WHEAT—Valley, \$1.50; Walla Walla, \$1.50 per cental. FLAX—Standard, \$1.50; Walla Walla, \$1.50 per barrel. OATS—New, 38c; old, 36c per bushel. RYE—\$1.20 per ton.
